Cell Biology & Functions
(CBF-103)
2nd Assignment

اسم الطالب	.....
كود الطالب	.....
المجموعة	.....

Part 1 Biochemistry

1) **Define constitutional enzymes**

.....
.....
.....
.....
.....
.....

2) **Enumerate the 5 complexes of the respiratory chain in order (order + enzyme nomenclature)**

.....
.....
.....
.....
.....
.....

3) **Discuss the role of each of the 7 major components of the electron transport chain.**

.....
.....
.....
.....
.....
.....

4) **Compare between inhibitors and uncouplers of the ETC regarding (definition, 3 examples for each class)**

.....
.....
.....
.....
.....
.....

5) **Define the body's three lines of antioxidant defense with examples**

.....
.....
.....
.....
.....
.....

6) **Mention diseases associated with free radical injury.**

.....
.....
.....
.....
.....
.....

Part 2 Physiology

1. **Define homeostasis and identify the "internal environment" of the body.**

.....
.....
.....
.....

2. **Mention the two control systems responsible for regulating homeostasis.**

.....
.....
.....
.....

3. **Describe how the body regulates high levels of carbon dioxide (CO_2) in the blood.**

.....
.....
.....
.....

4. **Enumerate two useful physiological examples of positive feedback in the human body.**

.....
.....

☐ **"I acknowledge and agree to the use of Artificial Intelligence (AI) tools for the grading and evaluation of my assignments, with the understanding that this process is conducted under the supervision of the academic staff."**
