The 1st CBF-103 Assignments

Part 1 Biochemistry

1) **Describe/Sketch the general chemical structure of amino acids.**

.....
.....
.....
.....
.....
.....

2) **Classify the 20 standard amino acids based on their nutritional requirements (provide an example for each class).**

.....
.....
.....
.....
.....
.....

3) **Describe the <u>clinical features</u> and <u>underlying cause</u> of Osteogenesis Imperfecta (OI) and Ehlers-Danlos Syndrome (EDS).**

.....
.....
.....
.....
.....
.....

4) **Enumerate the three main plasma proteins and mention their biological functions.**

.....
.....
.....
.....
.....

5) **Discuss two clinical diseases associated with protein misfolding and amyloidosis.**

.....
.....
.....
.....
.....

The 1st CBF-103 Assignments

Part 2 Physiology

1. **What are the two main fluid compartments of the body and their percentages?**

.....
.....
.....
.....

2. **Enumerate three important functions of body fluids.**

.....
.....
.....
.....

3. **Define edema, Compare intracellular edema and extracellular edema.**

.....
.....

intracellular edema	extracellular edema

4. **Enumerate three common causes of extracellular edema.**

.....
.....
.....
.....

☐ **"I acknowledge and agree to the use of Artificial Intelligence (AI) tools for the grading and evaluation of my assignments, with the understanding that this process is conducted under the supervision of the academic staff."**
