

- 1- i..... is- the -muscle –of- the -scalp
 - a- Orbicularis- oris
 - b- Orbicularis -oculi
 - c- Occipitofrontalis
 - d- Buccinator
- 2- The -scalp -consists -of layers -from -the -skin –to- the -Periosteum –of- the- skull
 - a- 2
 - b- 5
 - c- 7
 - d- 10
- 3- The -infection- can -be transmitted -from -the -dangerous -area –of- the -scalp -to -theo
 - a- Eyeball
 - b- Middle & inner -ears
 - c- Skull -bones
 - d- Arteries -of -the -neck
- 4- The –frontal- bellies -of -occipitofrontalis -are -supplied –by- the branch -of -facial -nerve
 - a- Temporal
 - b- Zygomatic
 - c- Posterior -auricular
 - d- Buccal
- 5- The -palpebral –part- of -orbicularis -oculiI
 - a- Closes –the- eyelids -strongly
 - b- Helps- in -drainage -of -tears
 - c- Is -one –of- the -layers -of -eyelids
 - d- Is- the- most –peripheral- part –of- the- muscle
- 6- Orbicularis -oris -is -supplied -by -a -branch –from- the Nerve
 - a- Facial
 - b- Mandibular
 - c- Maxillary
 - d- Hypoglossal
- 7- o..... muscle -covers –the- lateral -surface –of- the- ramus -of –the- mandible
 - a- Medial- pterygoid
 - b- Lateral- pterygoid
 - c- Masseter
 - d- Buccinator
- 8- The- anterior- fibers -of helps- to- close- the -mouth
 - a- Temporalis
 - b- Lateral -pterygoid
 - c- Digastric
 - d- Buccinator
- 9- o..... is –supplied- by –both- facial & mandibular- nerves
 - a- Mylohyoid
 - b- Temporalis
 - c- Sternomastoid
 - d- Digastric

10- The triangle- is- the- most- anterosuperior -one –in- the -neck

- a- Carotid
- b- Submandibular
- c- Submental
- d- Muscular

11- Geniohyoid -is –supplied- by- fibers- from nerve

- a- Facial
- b- Mandibular
- c- First -cervical
- d- Second -cervical

12- o..... muscle -elevates –hyoid- bone

- a- Digastric
- b- Sternohyoid
- c- Thyrohyoid
- d- Omohyoid

13- o..... is -supplied -by -the -nerve -supplying -mylohyoid

- a- Superior -belly- of -omohyoid
- b- Inferior belly of omohyoid
- c- Anterior -belly –of- digastric
- d- Posterior- belly -of -digastric

13- The -synovial -cavity -of -temporomandibular -joint -is -divided -into -upper & lower -cavities -by0

- a- The –fibrous- capsule
- b- An -articular -disc
- c- Lateral- pterygoid -muscle
- d- The -superficial -head -of -medial -pterygoid

14- The –deep- temporal -nerves –arise- from –the- anterior- division -of -mandibular -nerve -and -supply0

- a- Temporalis -muscle
- b- Temporomandibular -joint
- c- Temporal -part -of -scalp
- d- Lateral & medial -pterygoid -muscles

15- The ligament -prevents –the- lateral & posterior -dislocation -of –temporomandibular-joint

- a- Sphenomandibular
- b- Pterygomandibular
- c- Stylomandibular
- d- Temporomandibular

16- The -posterior -triangle- of -the -neck –is- bounded- inferiorly –by- the0

- a- First -rib
- b- Clavicle
- c- Sternum
- d- Scapula

- 17- o..... is- supplied- by- ansa- cervicalis
 - a- Omohyoid
 - b- Geniohyoid
 - c- Thyrohyoid
 - d- Stylohyoid
- 18- The- infrahyoid -muscles the- larynx
 - a- Elevate
 - b- Depress
 - c- Close
 - d- Open
- 19- o..... is- attached –to- the- mandible & hyoid -bone
 - a- Thyrohyoid
 - b- Omohyoid
 - c- Stylohyoid
 - d- Geniohyoid
- 20- Contraction -of -sternomastoid -on -one -side –rotates- the -face O
 - a- To –the- contralateral -side
 - b- To- the- same -side
 - c- Downwards
 - d- Downwards & to- the –ipsilateral- side
- 21- The Cranial nerve is pure sensory
 - a- 5th
 - b- 6th
 - c- 7th
 - d- 8th
- 22- Stapedius muscle is supplied by Nerve
 - a- Facial
 - b- Trigeminal
 - c- Glossopharyngeal
 - d- Vagus
- 23- General sensations from the are carried by maxillary nerve
 - a- Upper eyelid
 - b- Forehead
 - c- Lower eyelid
 - d- Lower lip
- 24- Mandibular nerve trunk is formed just below the foramen Of the skull
 - a- Ovale
 - b- Spinosum
 - c- Magnum
 - d- Rotundum
- 25- Hypoglossal nerve supplies all muscles of the tongue except
 - a- Genioglossus
 - b- Styloglossus
 - c- Palatoglossus
 - d- Hyoglossus

- 26- The nerve passes through the superior orbital fissure to enter the orbit**
a- Optic
b- Maxillary
c- Olfactory
d- Trochlear
- 27- The Nerve is a pure motor nerve and supplies only one muscle**
a- Oculomotor
b- Cranial accessory
c- Spinal accessory
d- Abducent
- 28- Injury of Nerve leads to marked impairment of alimentary tract function**
a- Glossopharyngeal
b- Vagus
c- Accessory
d- Facial
- 29- Great auricular nerve carries general sensations from the auricle & the**
a- Upper part of cheek
b- Lower lip & lower part of cheek
c- Posterior part of scalp
d- Side of the neck
- 30- muscle is supplied by the 9th cranial nerve**
a- Stylopharyngeus
b- Palatopharyngeus
c- Stylohyoid
d- Palatoglossus
